I'm not able to find my child by entering their information in the student look-up. What should I do?

Make sure that the information you are entering matches exactly with the information that is on file with the school. The lookup is sensitive to differences in initials, hyphens, etc.

If you are still having trouble, please contact your school for assistance.

How do I change my re-enrollment response after completing the re-enrollment survey?

Log back into the [Enrollment Portal](#). Click on “Dashboard” at the top and then click your child’s name in the blue box. Then click on “View Registration.” This will allow you to return to the survey and change your response by clicking on the step in the “Re-enrollment Survey Progress” box in the top left.

How do I re-enroll more than one child?

If you have more than one child returning to the same BASIS location/campus next year then you do need to complete a separate re-enrollment survey for each child. After submitting the first re-enrollment survey you will be asked if you have other children at BASIS at the top of the submission confirmation page. You can click on the “RE-ENROLL NOW” button and proceed with a re-enrollment survey for your next child.

Your re-enrollment survey is considered complete and submitted. You may print the form for your records, but this is optional. If you need to make any edits, click on the appropriate step in the progress box to the left.
